The BCPS Employees for Freedom Non-Profit Society (BCPSEF) is announcing that a class action lawsuit has been launched by a representative plaintiff and BCPSEF member, on behalf of all unionized employees of the B.C. Public Service over the Province of B.C.'s proof of COVID-19 vaccination mandate imposed on provincial government employees in November 2021. The plaintiff's claim is against the Province of B.C. and British Columbia's Provincial Health Officer, Dr. Bonnie Henry.

The plaintiff has filed this action due to the Province's COVID-19 employee vaccine mandate that was contrary to the public service employees' *Charter* rights and violated their medical privacy and bodily autonomy.

Although the action has been launched by one plaintiff, it is being brought forward on behalf of all PEA and BCGEU unionized employees of the B.C. Public Service harmed by the Province's vaccine mandate. It has the potential to assert the rights of tens of thousands of unionized public servants in British Columbia.
